Precious Metals Market

up in black projects and it would take an act of God to ever get them out to benefit humanity.... Anything you can imagine, we already know how to do.”

~Ben Rich, former head of the Lockheed Skunk Works

By Catherine Austin Fitts

This week on the Solari Report, Dr. Joseph Farrell joins me for a discussion of his new book [Covert Wars and the Clash of Civilizations](#).

The current debate around the future of the dollar as the world's reserve currency is intense. The US government is managing a series of political defeats – from global NSA scandals, to domestic unemployment and health care woes. And yet, the value of the US dollar has remained relatively strong.

Joseph and I pick up on our prior discussions on the the breakaway civilization (Click here for [Part I](#) and [Part II](#)), to discuss the investment, military and intelligence interests that support and depend on the dollar to remain the global reserve currency. We start with a discussion of the phenomenon and risks that the national security infrastructure has faced historically, how that may relate to financial scandals of the last two decades and to investment in North America today as well as the growing tensions between the US and its traditional allies in the G-7.

This is a wide ranging conversation – two hours in

The Presidency and Assassination of John F. Kennedy with Peter Janney

[We're About to Lose Net Neutrality – And the Internet as We Know It](#)

Net neutrality is a dead man walking. The execution date isn't set, but it could be days, or months (at best).

[Breaking Through the Cloud Cover](#)

Our problems are squarely on the asset side of the balance sheet. Our problems are first and foremost political problems related to concrete asset management issues. Our financial issues are a symptom of a political problem.

[Lavabit And Silent Circle Join Forces To Make All Email Surveillance-Proof](#)

In recent months, Lavabit, based in Texas, and Silent Circle, based in

length – that explores numerous unanswered questions at the heart of the challenges and opportunities before us.

In *Money & Markets* this week I will discuss the latest events in the domestic and global financial markets. In *Let's Go to the Movies*, I will review the newly released [Ender's Game](#), based on Orson Scott Card's award winning science fiction novel by the same name.

Talk to you Thursday!

Washington, D.C., both shuttered their encrypted email services.

[Rich Families Are Hoarding Cash: Citi](#)

A new survey of family offices by Citi finds that the wealthy are cash heavy.

[Fill out this Form.](#)

Sign up for a 6-month non-refundable subscription and receive a complimentary copy of the "Crowdfunding: What it Means to You" OR the "4th Quarter 2013 Equity Report".

Solari Coin – a one ounce silver round designed by Ben Lizardi of Lizardi Studio and minted by the Northwest Territorial Mint.

The coin design features a solar armillary (the Solari logo) on one side, and the horsemen of the Knights Templar on the other side. The coin is representative of Solari's purpose: to align interests, protect, guide, and lead through troubled times.

Highlights from Last Week's Report

"We're going to talk about 'What are Zombies?' 'Why are they so popular?' 'What does that signify and What does it mean to you?' So here is my take on the whole thing. The Zombie phenomena is a very big act and it has been going on for a while in art and fiction and reality."
