UFOs for 21st Century Minds with Richard Dolan

By Catherine Austin Fitts

When Richard Dolan [joined us](#) on the Solari Report in 2010, I said that his two book series, *UFOs and the National Security State*, was the best overview of the UFO phenomenon available. Well, now there is a better one. It's Richard's latest, hot off the presses: [UFOs for the 21st Century Mind: A Fresh Guide to an Ancient Mystery](#).

Be careful when you start it. I could not put it down.

Richard has done us an enormous service by using his fearless intellect and skills to wrestle the topic into a manageable framework. Yes, the unanswered questions are formidable, even mind-bending. However, the power of our intellect and faith can cut through the weirdness and think through the possibilities that we may face as a civilization. Yes, we can understand our world.
