[Back From the Secret Space Program Conference 2014](#)

Bonnie will be attending the [Secret Space Program & Breakaway Civilization Conference](#) this weekend in the heart of Silicon Valley, south of San Francisco. Many of our favorite opinion leaders who you hear on The Solari Report will be speaking, including Jon Rappoport, Joseph Farrell, Richard Dolan and host Henrik Palmgren. Many subscribers will be attending in person or by watching the live stream through the Internet. People have been preparing and flying in throughout the week – you can feel the excitement and energy gather. I will be speaking Sunday morning on the black budget and the financing of the breakaway civilization. Check out the blog coverage *Fear and Loathing in Silicon Valley* by “Nines” here on the Solari Report blog.

Bonnie and I will recap what happened, what we learned and what it means to you. There is no more astute observer on global geopolitics than Bonnie Faulkner so am delighted to have her join me to transmit some of the electricity that powers this weekend. No doubt the reverberations will continue into next week and for some time to come.

## Highlights from Last Week's Report

"There are 79 million Americans taking at least one psychiatric drug, and that includes 7.5 million children between the ages of 6 and 17 that are taking at least one psychiatric drug. That's one in five Americans who are taking at least one psychiatric drug!

When you really get down to the nitty-gritty, the Center for Disease Control about three weeks ago put out a report about the number of toddlers who are taking ADHD drugs, which when we get into this a little bit more, it's astounding when you look at the numbers. Right now they say that they have 10,000 toddlers – children under the age of two – who are taking ADHD drugs."
