# Solari Report Update

## Equity Overview - The Shift to Global 3.0 - Nov. 13th

To <<First Name>> <<Last Name>>

*"I can live with doubt and uncertainty and not knowing. I think it is much more interesting to live not knowing than to have answers that might be wrong." ~ Richard Feynman*

This week on The Solari Report, Chuck Gibson joins me for our quarterly Equity Overview.

In our [January Annual Wrap Up](#), I introduced the concept of the shift from Global 2.0 to Global 3.0. Rather than focus on the deterioration in the government systems from which assets have been

limited, I wanted to focus on the reinvestment of those resources. Where are resources going and what are the implications for our society and economy?

I explored these developments further in our [1st](#) and [2nd](#) Quarter Wrap Ups. The result was many excellent questions from subscribers about the implications for the equity markets and for your investment strategy.

To respond, Chuck and I decided to focus this Equity Overview on the investor's perspective on Global 3.0.

To do so, I reviewed the twelve trends that will have the greatest impact on the economy in the [3rd Quarter Wrap Up](#).

This coming week, after Chuck updates us on recent developments in the equity markets, we will describe how these trends are emerging in the equity markets. Then we will cover the key risk issues and the implications to your investment strategy, including the pros and cons of a buy and hold strategy, the role of diversification and the importance of quality in leadership – whether of companies, funds or custodians.

Chuck has prepared a series of graphs and charts that give you a strategic view of both markets and the history of investment performance.

## The Secret Space Program Videos are Now Available to Solari Report Subscribers!

Our friends from [The Secret Space Program](#) have very kindly allowed us to provide the video to our subscribers!

“What is in space now and what can be? How does space influence all of our lives? Are there Cosmic Cultures and Civilizations? Are they visiting us, are they under us? If so, how will this impact our lives? Midst all the myths and legends, speculations and interpretations, theories and perspectives, fears and “research”, how does one discern the truth? With the spins and twists presented in books, documentaries, conferences and speakers, you might find your answers during this unique conference.

If we manage to ask the right questions and put some of the pieces together we might be getting closer to some kind of answer – what is really going on out there? Who is really running things? What are their goals? Why are they behaving this way?”

## Solari Report Subscription "Special Offer"

Sign up for a one-year subscription to receive a free Solari Coin or a 6-month subscribe to receive a limited edition Solari cap!

The Solari Coin is a one ounce, silver round designed by Ben Lizardi of [Lizardi Studio](#) and minted by the Northwest Territorial Mint. The coin design features a solar armillary (the Solari logo) on one side and the horsemen of the Knights Templar on the other side. This coin is representative of Solari’s purpose: to align interests, protect, guide, and lead through troubled times.

## Highlights from Last Week's Report

As lending terms start to relax, more people are looking to buy homes or help their children and grandchildren buy their first one.

There are many benefits to owning your own home – if you do it right. However, finding the right home is a complex matter, let alone going through the process of buying and financing a home. If you have never done it before, the challenge can seem daunting. You are making a purchase of both a major consumption good and, ideally, a major investment.

Dr. Gary Eldred, author of [Investing in Real Estate](#), once sent his students out to interview hundreds of real estate professionals to create a comprehensive list of all the mistakes and pitfalls to avoid, publishing it in his classic [The 106 Common Mistakes Homebuyers Make \(and how to Avoid Them\)](#)

Dr. Eldred joins me on The Solari Report to go back to basics and step through the dos and don'ts of buying a home.
