The Secret Space Program Videos are Now Available to Solari Report Subscribers!

Our friends from [The Secret Space Program](#) have very kindly allowed us to provide the video to our subscribers!

“What is in space now and what can be? How does space influence all of our lives? Are there Cosmic Cultures and Civilizations? Are they visiting us, are they under us? If so, how will this impact our lives? Midst all the myths and legends, speculations

and interpretations, theories and perspectives, fears and “research”, how does one discern the truth? With the spins and twists presented in books, documentaries, conferences and speakers, you might find your answers during this unique conference.

If we manage to ask the right questions and put some of the pieces together we might be getting closer to some kind of answer – what is really going on out there? Who is really running things? What are their goals? Why are they behaving this way?”

Highlights from Last Week's Report

This coming Thursday is Thanksgiving. Some of the people I will be giving thanks for are the many people in our network who protect our health freedoms, including attorney Alan Phillips.

[Alan Phillips](#), author of *The Authoritative Guide to Vaccine Legal Exemptions*, joins me on The Solari Report this week.

[Alan joined us on The Solari Report in 2009](#) when many of us were concerned about efforts to mandate a swine flu vaccine. He [joined us again in 2013](#) to address increased efforts to mandate vaccines for health care professionals as well as growing pressure on parents from school systems.

Subscribers have said they wish to avoid vaccines, but don't know how to handle various legal, regulatory and professional obstacles. We have asked Alan to help you understand how to get accurate information on the law and latest developments in this area.
