Unpacking Divide and Conquer with Junious Ricardo Stanton - Dec. 18th

"For God hath not given us the spirit of fear; but of power, and of love, and of a strong mind." ~ 2 Timothy 1:7

The economics of hatred is a fascinating area of research – one I recommend to you. When you start digging in to who makes money on hatred you start to see the world through a new lens. There is no more effective tactic to financial and economic control than keeping the general population in a state of dramatic competition rather than peaceful

cooperation. Arranging for your enemies to destroy each other in ways that profit you is an ancient tactic – but with digital technology and multinational corporate media it is achieving a very modern twist.

This week on The Solari Report, I will be speaking with one of the independent producers I most admire – author and host of [The Digital Underground](#) and [The Cyberspace Sanctuary](#), Junious Ricardo Stanton. Junious and I are both from the Philadelphia area, both attended the University of Pennsylvania. We share a lifelong passion for understanding the world around us from the global economy to our local community. Junious served as a councilman in Lawnside, New Jersey and studied urban planning.

An invaluable step to living a free and inspired life is building immunity to the divide and conquer media and politics around us. To do that, I find it particularly valuable to understand the effort to alienate men from women and black from white. Remove those two manipulations and the entire game could unravel.

I asked Junious to join me because I want a raw, uncut conversation. Junious is the master of dealing with our darkest obstacles while keeping things in a higher mind. He has grappled with these issues for many years both professionally and on and off air.

Pastor TD Jakes once said, “If you lose your love, you lose your power.” How do you survive the “beat down” and preserve your love? There is no more important question before us. Love is the backbone of a culture that endures. Jim Rouse once challenged the design group for Columbia, Maryland, “How do we create communities where we are free to love one another?” This question is at the heart of outwitting the uncivil society growing up around us. We need to talk about this and we need to do it now.

Special Solari Report: In-State Equity Crowdfunding Offerings as an Alternative to Federal Jobs Act

~The following article and accompanying table are intended for use as reference tools and as indications of the types of requirements and restrictions that may be found in various state statutes and regulations. They should not be relied upon, may not be current, accurate or complete and do not constitute legal advice for readers. Any small business interested in conducting a state crowdfunding offering should consult competent legal counsel in the applicable home state before taking any action.~

[CAF Note: Whenever I am interested in a highly complex legal and regulatory issue, I turn to our attorney Carolyn Betts to research and write something that distills the material down so that a serious entrepreneur can get the lay of the land before finding the right attorney. The goal is to take a very important issue and reduce the task of defining options to something a busy person can handle it. As the federal government has declined to create a regulatory pathway for crowdfunding to serve as a legitimate tool for entrepreneurs to raise equity capital, the states are proceeding to take action. If using crowdfunding to invest or raise capital with securities is of interest, do check out what is happening in your state. Here it is – another tour de force from Carolyn Betts.]

The Secret Space Program Videos are Now Available to Solari Report Subscribers!

Our friends from [The Secret Space Program](#) have very kindly allowed us to provide the video to our subscribers!

“What is in space now and what can be? How does space influence all of our lives? Are there Cosmic Cultures and Civilizations? Are they visiting us, are they under us? If so, how will this impact our lives? Midst all the myths and legends, speculations and interpretations, theories and perspectives, fears and “research”, how does one discern the truth? With the spins and twists presented in books, documentaries, conferences and speakers, you might find your answers during this unique conference.

If we manage to ask the right questions and put some of the pieces together we might be getting closer to some kind of answer – what is really going on out there? Who is really running things? What are their goals? Why are they behaving this way?”

Highlights from Last Week's Report

This week is the Precious Metal Market Report on The Solari Report, Franklin Sanders of [The Moneychanger](#) will join me to brief us on the **latest developments in the gold and silver markets** and to share his insight on what technical analysis is telling him about current market trends.

I have asked Franklin to help me address potential **scenarios for my 2015 investment strategies**. We will also address how to follow geopolitical developments and financial prices in a manner that looks squarely at all the risks ahead without losing time, money or even our minds to less likely, wildcard or whacky scenarios.

We will also touch base on Christmas to tell you the story of how giving gold and

silver to the kids I love at Christmas inspired me to work with Franklin on launching his idea for a [Silver and Gold Calculator](#). Now is the time of year to consider [gifting to the children you love](#) during the holiday season.
