Special Solari Report: In-State Equity Crowdfunding Offerings as an Alternative to Federal Jobs Act - Now Available to All Solari Readers!

~The following article and accompanying table are intended for use as reference tools and as indications of the types of requirements and restrictions that may be found in various state statutes and regulations. They should not be relied upon, may not be current, accurate or complete and do not constitute legal advice for readers. Any small business interested in conducting a state crowdfunding offering should consult competent legal counsel in the applicable home state before taking any action.~

[CAF Note: Whenever I am interested in a highly complex legal and regulatory issue, I turn to our attorney Carolyn Betts to research and write something that distills the material down so that a serious entrepreneur can get the lay of the land before finding the right attorney. The goal is to take a very important issue and reduce the task of defining options to something a busy person can handle it. As the federal government has declined to create a regulatory pathway for crowdfunding to serve as a legitimate tool for entrepreneurs to raise equity capital, the states are proceeding to take action. If using crowdfunding to invest or raise capital with securities is of interest, do check out what is happening in your state. Here it is – another tour de force from Carolyn Betts.]

The Secret Space Program Videos are Now Available to Solari Report Subscribers!

Our friends from [The Secret Space Program](#) have very kindly allowed us to provide the video to our subscribers!

“What is in space now and what can be? How does space influence all of our lives? Are there Cosmic Cultures and Civilizations? Are they visiting us, are they under us? If so, how will this impact our lives? Midst all the myths and legends, speculations and interpretations, theories and perspectives, fears and “research”, how does one discern the truth? With the spins and twists presented in books, documentaries, conferences and speakers, you might find your answers during this unique conference.

If we manage to ask the right questions and put some of the pieces together we might be getting closer to some kind of answer – what is really going on out there? Who is really running things? What are their goals? Why are they behaving this way?”
