2015: Free & Inspired with Jon Rappoport

“My preference is to live neither as dependent or victim, rather to look reality squarely in the face and use the resulting intelligence to live a free and inspired life. This includes building wealth in changing times.” – 2014 Annual Wrap Up

This week on The Solari Report, Jon Rappoport joins me to discuss the most intimate part of our 2014 Annual Wrap Up.

How do we we manage to live a free & inspired life?
How do we create a vision for our future which is more attractive to our time and attention than the shrieking and manipulations around us? How do we calmly navigate in the midst of political instability and volatile financial and commodity markets?

As always Jon helps us to live the life we choose to lead, not the one others attempt to herd us into.

This conversation will be free range and – as Dr. Farrell says – engage in lots of “high octane speculation.” Enjoy the web presentation for the Wrap Up first – you will get essential perspective on what is happening and what’s ahead. Special Solari Report: In-State Equity Crowdfunding Offerings as an Alternative to Federal Jobs Act - Now

Available to All Solari Readers!

~The following article and accompanying table are intended for use as reference tools and as indications of the types of requirements and restrictions that may be found in various state statutes and regulations. They should not be relied upon, may not be current, accurate or complete and do not constitute legal advice for readers. Any small business interested in conducting a state crowdfunding offering should consult competent legal counsel in the applicable home state before taking any action.~

[CAF Note: Whenever I am interested in a highly complex legal and regulatory issue, I turn to our attorney Carolyn Betts to research and write something that distills the material down so that a serious entrepreneur can get the lay of the land before finding the right attorney. The goal is to take a very important issue and reduce the task of defining options to something a busy person can handle it. As the federal government has declined to create a regulatory pathway for crowdfunding to serve as a legitimate tool for entrepreneurs to raise equity capital, the states are proceeding to take action. If using crowdfunding to invest or raise capital with securities is of interest, do check out what is happening in your state. Here it is – another tour de force from Carolyn Betts.]
