

Congress that we know as much as we do about trillions missing from the US government, sex-slave trafficking by defense contractor officials and the failure to achieve transparency and accountability regarding the events of 9/11. The shenanigans that McKinney managed in her 2002 defeat and 2004 re-election to Congress were documented in the Guerrilla News Network production [American Blackout](#).

I have said many times that we have three pathways before us:

- War
- Depopulation
- Change

Our focus at Solari is *change*. I have asked Congresswoman McKinney to join us on the [Solari Report](#) this week to discuss the REAL issues we face in 2016.

We need to understand what a successful United States and a successful world really look like. McKinney is one of the seasoned leaders who has been in the fray, grappled with the issues and is helping people create a practical vision. She is brilliant and shoots straight – so be prepared for a **much more informative discussion** than you are used to hearing from “entertainment politics.”

Congresswoman McKinney is also the author of [Ain't Nothing Like Freedom](#) and editor of [The Illegal War on Libya](#).

Trans-Pacific Partnership Part Two: Trade In Services Agreement Background, Composition of Support and Opposition, Potential Dangers and Links - Available for Subscribers!

[Note from CAF: This piece is the second part of a series on the proposed trade agreements. Our first piece on the Trans-Pacific Partnership can be found [here](#). These agreements are expected to have a significant impact on the global economy. We hope these pieces help to educate you about what is underway.]

By Carolyn A. Betts, Esq. and Catherine Austin Fitts

In Part 1 of the *Solari Report's* series on international trade agreements and trade promotion authority, we provided a summary of some of the terms of the secret draft sections of the Trans Pacific Partnership Agreement (TPP), a proposed regional free trade agreement that would cover the trade in goods among twelve Pacific Rim countries, including the US. We provided links to sections of the TPP that have been leaked by Wikileaks and described some of the objections registered by various groups that oppose the TPP. We described some non-tariff trade barriers sought to be addressed in typical free trade agreements like the TPP and the international tribunals that have become the arbiters of disagreements among signatories (called "Parties") to various trade agreements in recent years.
