fall calendars to 1) reduce stress and 2) protect our health. We are entering a period where paying close attention to wellness could make an important difference.

To help me explore this subject, I have asked Dr. Laura Thompson to join me on the *Solari Report* this week. Dr. Thompson is the CEO and founder of the Southern California Institute of Clinical Nutrition based in Carlsbad, California. She received her Ph.D. in Nutrition and Human Behavior from Ryokan College in Los Angeles, studied naturopathy and iridology with Dr. Bernard Jensen, and culinary arts at the Paris American Academy in Paris, France.

We will focus on the steps you can take to reduce stress, build your immune system and reduce toxicity. I will be drawing on our previous *Solari Reports* with Dr. Thompson:

Now Available to Non-Subscribers! - Trade Agreements Part Two: Trade In Services Agreement Background, Composition of Support and Opposition, Potential Dangers and Links

[Note from CAF: This piece is the second part of a series on the proposed trade agreements. Our first piece on the Trans-Pacific Partnership can be found [here](#). These agreements are expected to have a significant impact on the global economy. We hope these pieces help to educate you about what is underway.]

By Carolyn A. Betts, Esq. and Catherine Austin Fitts

In Part 1 of the *Solari Report's* series on international trade agreements and trade promotion authority, we provided a summary of some of the terms of the secret draft sections of the Trans Pacific Partnership Agreement (TPP), a proposed regional free trade agreement that would cover the trade in goods among twelve Pacific Rim countries, including the US. We provided links to sections of the TPP that have been leaked by Wikileaks and described some of the objections registered by various groups that oppose the TPP. We described some non-tariff trade barriers sought to be addressed in typical free trade agreements like the TPP and the international tribunals that have become the arbiters of disagreements among signatories (called "Parties") to various trade agreements in recent years.

Highlights from Our Last Report

We are seeing an increased use of covert force delivered via sophisticated surveillance technologies and exotic weaponry (both visible and invisible) to stage violent events. Such events are designed to:

- Draw media attention / boost media revenues
- Shift popular opinion
- Justify government policies and acts of war
- Further centralize wealth and political power

Indeed, it may be said that such events – often referred to as **false flag events** – are a form of street theater or reality TV which have been taken to a whole new level of intensity and profitability.

Under the circumstances, it is not surprising that my esteemed ally, Richard Dolan, is writing a book about false flag events. I took the opportunity to invite Richard to join me this week on the *Solari Report* to discuss his research.

Two phenomena are critical to the development of false flag capabilities: the technology of control and the emergence of intelligence agencies and private armies.

Because these subjects are highly complex, I have researched and written a series of book reviews to supplement this week's discussion:

- [Guinea Pigs: Technologies of Control](#)
- [The Modern Mercenary](#)
- [Mark M. Rich on the Nuts & Bolts of Tyranny \(subscriber-only\)](#)

My goal is not to draw you into the heart of darkness. Rather, I want you to see what is happening around you so that you are less likely to be tricked or harmed.
