*"When you wake up every day, you have two choices. You can either be positive or negative; an optimist or a pessimist. I choose to be an optimist. It's all a matter of perspective"*

~ Harvey Mackay

By Catherine Austin Fitts

This week on the *Solari Report*, Dr. Joseph Farrell will join me to discuss the *Solari Report* [2015 Annual Wrap Up](#) – to review our global shift into space and the space based economy, the top trends and stories of 2015 and to explore what is ahead in 2016. Our conversation will be free range and – as Dr. Farrell says – we include “high octane speculation.”

Enjoy the web presentation for the [Wrap Up](#) first – you will get essential perspective on what is happening and what's ahead. As one subscriber said, “The view is breathtaking.”

Dear Friends:

Each of us at Solari sees and hears the need for restoration and rejuvenation throughout our lives and work. We hear the effort to apply the Golden Rule in our lives, our work and our finances. We hear a call for a positive and productive way forward through the changes upon us. We are often asked, “What can I do?” One of the things each one of us can do is to pray. No matter how pressed our schedule is, there is always time for prayer.

On behalf of the entire team at Solari, Happy New Year!

### Highlights from Last Week - 2015 Annual Equity Overview

As discussed in our [Annual Wrap Up](#), the economic ground is shifting under our feet. This has implications for global valuations – indeed watching global valuations offers important insights on the transition underway. The challenge this year, as bulls and bears collide, is to discern volatility and events of economic warfare from deeper trends.

In our Annual Equity Overview this Thursday, I will review the charts for 2015 performance and global valuations in the equity markets. I will also address specific questions:

- the outlook for the US dollar and the impact of dollar performance on the US stock market;
- a serious deflationary scenario – could it happen and what would the implications be for your strategy;
- Solari Report scenarios for planning your allocations in 2016; and
- issues and options to consider for your portfolio and investment strategy.

Please do post or e-mail your questions before Thursday.

The “Space Based Economy” and “Financial Markets Round Up” sections of the [Annual Wrap Up](#) are essential background for our discussion, so take a look if you

have a chance.
