Solari Report Update

Jay Dyer - Unpacking What Movies Tell Us About Mind Control, April 28th.

To

"The mind is everything. What you think, you become."

~ **The Buddha**

The divine intelligence is a great power, as is the human spirit and all of life. To unleash this power in our lives requires overcoming the man-made obstacles placed in our paths by mind control — in all its various forms.

How do we free ourselves from mind control manipulation and programming? The first step is knowing that these techniques and technologies exist. Next, we learn what we can about how mind control works. In the process, our understanding of the impact that mind control has on our lives and on society around us grows. Finally, we can choose to take steps to free ourselves while living in a society where many choose not to do the same.

One way of learning about mind control in all its aspects is to unpack what Hollywood tells us. This week on the Solari Report, [Jay Dyer](#) of [Jay's Analysis](#) joins me to review twelve movies that teach us a great deal about mind control and related technologies. I met Jay at [Secret Space Program 2015](#) where he wowed us with his [presentation on what Hollywood says about secret space programs](#). Jay's mastery of cinema and the "deep state" is unique. You can view links to his reviews of the movies we'll discuss this week below.

There will be no *Money & Markets* segment this week. I look forward to answering your questions and comments and reporting on our subscriber luncheon in New York with Richard Dolan in *Money & Markets* the following week.

1st Quarter Wrap Up: Where to Stash Your Cash in 2016

*“I am not so much concerned with the return **on** capital as I am with the return **of** capital.”*

~ Will Rogers

Our theme for the 2016 1st Quarter Wrap Up is “Where to Stash Your

Cash in 2016.”

Interest rates continue to stay low and concerns are growing that negative interest rates in European and Japanese sovereign markets may spread to North America. Concerns are also growing about the integrity of the financial system and the digital systems that payment and transactions use.

What does this mean to me and you? How do you ensure that you are with a trustworthy custodian? How do you ensure that your principal is protected? How do you achieve some return on your deposits or cash equivalent assets without taking a lot of risk? For numerous reasons, this is a good time to step back and review your cash management options.

The 1st Quarter Wrap Up comes with both audio and web presentations in four sections:

- **Introduction** – I will present a brief overview of the economy and markets for 1st Q 2016.
- **Theme** – Where to Stash Your Cash in 2016.
- **News Trends and Stories** – Dr. Joseph Farrell will join me for a in-depth discussion of the top news trends and stories.
- **Financial Presentations** – In this quarter I am combining the Q1 Equity Overview with the Quarterly Wrap Up, so we will cover the market charts in a single, integrated presentation.

We will pick up on numerous themes from earlier wrap up’s, including:

- **The Space Based Economy** – [See the 2015 Annual Wrap Up: Space. Here We Go!](#)
- **The Shift from Global 2.0 to Global 3.0** – See the [2013 Annual Wrap Up: Breakaway](#) and [2014 Annual Wrap Up: A Free and Inspired Life](#)

If you have not yet read the prior annual and quarterly Wrap Up’s, they offer great background material for these and other Solari Reports.

Later this month we will publish a PDF transcript and an online flipbook for Solari Report subscribers. In early May, a hard-copy version of the Q1 Wrap Up will be available for purchase by subscribers at the Solari Store.

Highlights from Last Week - Blockbuster Chartology with Rambus

Rambus is the online “handle” of the proprietor of [Rambus Chartology](#), my “go to” site for technical analysis. Rambus joins us this week for his quarterly Blockbuster Chartology.

In this week's report, Rambus will review global charts (in written form) including updates on the dollar, gold and the equity markets. In Money & Markets, I will address numerous questions inspired by the charts.

Our January report from Rambus – [Are We In in a Deflationary Spiral?](#) – is excellent background as well as our financial round up from the 1st Quarter Wrap Up.

Reviewing these charts is one of my preferred methods for mapping out money flows on Planet Earth. It provides a powerful perspective on prices and relative relationships between sectors across all markets.

Make sure to e-mail or post subscriber questions for Ask Catherine.
