JP MADOFF

THE UNHOLY ALLIANCE BETWEEN
AMERICA'S BIGGEST BANK AND
AMERICA'S BIGGEST CROOK

HELEN DAVIS CHAITMAN & LANCE GOTTHOFFER

JP Madoff, With Helen Chaitman, May 19th.

To

"A man who has never gone to school may steal from a freight car; but if he has a university education, he may steal the whole railroad."

~ Theodore Roosevelt

In 2008, Helen Chaitman was a highly accomplished New York attorney with a successful litigation practice in lender liability. Then two things happened. She lost her savings when Bernie Madoff's investment business collapsed. Then her legal practice also collapsed with the wider financial crisis.

However, some people look misfortune straight in the eye and march on through to victory. Helen started helping Madoff victims. Realizing the importance of clarifying tax treatment, she lobbied Congress on their behalf. Today she has emerged as the leading attorney representing Madoff victims.

Appalled at the truths she was uncovering and the silence of the corporate media, Helen published a website and book *JP Madoff: The Unholy Alliance Between America's Biggest Bank and America's Biggest Crook*.

This week Helen joins me on the Solari Report for an unforgettable interview on the real deal behind the Madoff ponzi scheme and Bernie Madoff's controlling partner in crime, JP Morgan Chase.

You will never view the US banking and regulatory system in the same way after you listen to what Helen has to say. Best of all you will be inspired by the powerful intellect and personal courage of one attorney prepared to fight for the rule of law against "all of the money on the planet."

From the book:

"Our government did not require that a single JPMorgan Chase employee face criminal charges . . . or even lose his job. In deferring the indictment against the bank, the United States government may have feared that JPMorgan Chase is too big to fail. But surely JPMorgan Chase, with 240,000 employees, can survive without the handful of officers who sheltered Madoff from the law for 20 years and, as the bank has acknowledged, violated the law. Are these officers too rich to jail? How did we become a country where powerful employers can purchase immunity from criminal prosecution for their employees?"

Since the government won't protect you, the purpose of this book is to give you the information you need to protect yourselves: when bankers act like gangsters, you should treat them like gangsters, even if the government won't. And the last thing you should do is trust them with your money.

Highlights from Last Week - Vaxxed & Other Great Stories of Suppression with Jon Rappoport

The special interests that lobbied the Tribeca Film Festival to cancel the documentary [VAXXED: From Cover Up to Catastrophe](#) meant to suppress evidence that vaccines are contributing to an epidemic of autism. The suppression backfired. Instead, coverage of the documentary exploded, in no small part thanks to Robert De Niro’s courageous interviews calling for an open discussion of the issues.

This latest dance of suppression inspired me to invite Jon Rappoport of [No More Fake News](#) to join me in a discussion of stories of suppression and heroes who outwit it. From the Inquisition through suppression of energy and health care technology to Dark Alliance allegations and other stories of outrageous media manipulation, in this week’s Solari Report Jon and I review many important stories of suppression and the truth tellers who have brought them to light.

Let’s face it: the better you see the game, the less likely that suppression will work.
