## 3rd Quarter Wrap Up - News Trends & Stories, Part I - October 6<sup>th</sup>

To

*"Cut and run or cut-and-run is an idiomatic verb phrase meaning to "make off promptly" or to "hurry off". The phrase originated in the 1700s as describing an act allowing a ship to make sail quickly in an urgent situation....The phrase is used as a pejorative in political language, implying a panicked and cowardly retreat..." ~ Wikipedia*

Our **3rd Quarter Wrap Up** will be presented throughout October in four parts:

- **News Trends & Stories, Parts I and II** For the next two weeks we will highlight the top news trends and stories with Dr. Joseph Farrell. This coming week in **Part I**, we will look at *Economy and Financial Markets* and *Geopolitics*, including a serious discussion of "cut and run" – the growing signs that insiders are pulling significant money and assets out of the US government and spinning out and cashing out of major investments and liabilities. The following week in **Part II**, Dr. Farrell and I will cover *Science and Technology* and *The Big Questions*. Make sure to check our web presentation for the complete listing with links of *News Trends & Stories* for the 3rd Quarter.
- **Financial Market Roundup:** In the third week, we will combine a written Blockbuster Chartology from master technician Rambus with Catherine's Equity Overview. Make sure to check our web presentation for the complete roundup of financial market charts on September 30 which will be available

next week.

- **Theme – Investment Screening: Can We Filter for Productive Companies?**- Finally, our big theme. We look at the investment screening industry and ask whether it is possible to filter for fundamentally productive companies. In August, investors in private prison companies found their stock price down by almost 50% as a result of changes in government policies. Wells Fargo stock is down 18% this year, in part because of a scandal related to falsification of accounts. As the debt-financed growth model comes to an end, investors in companies that are not fundamentally productive face a new set of risks.

In *Money & Markets* this week I will discuss the latest in financial and geopolitical news, as well as my latest commentary, [“Crazy Man vs. Criminal: Cut and Run, Monica Lewinsky II & Real Trouble Ahead.”](#)

In *Let’s Go to the Movies*, I will review *The Night Manager*, an adaptation of the John le Carré novel by the same name. It tells the story of a British effort to indict and prosecute a major arms trafficker. The intelligence operatives are faced with two enemies – the arms trafficker and the upper echelons of their own government, whose interests are intertwined with the lucrative trade. Tom Hiddleston is particularly brilliant in the role of the uncover agent.

Are you are ready for the Joseph P. Farrell Pipe Organ Crowdfund? Our team is working with some of our favorite FOJ – Friends of Joseph – to launch a crowdfunding for a virtual pipe organ (that is a very real organ with digital pipes) for our dear friend and ally Dr. Joseph Farrell. Stay tuned for the “high octane” composition that flows from Joseph and his new organ.

We are converging on Tulsa from all four directions on October 15th to drink wine, share a great dinner and celebrate the good things that flow from friendship, music and merriment. You do not want to miss this historic launch party in the heartland of America!

The Joseph P. Farrell Pipe Organ Crowdfund...it's coming!

Here is a picture from our organ builder Chris Martin of a similar organ to the one that will be built for Joseph:

### **Highlights from Last Week - Th Emerging Multipolar World with Saker: Russia, Syria & Recommendations for a Trump Presidency**

This week on the Solari Report, [The Saker](#) will join me for his quarterly update on the shift to a multipolar world.

We will discuss the recent Duma elections in Russia as well as current developments in Syria and the implications for global geopolitics.

In his [quarterly report in June](#), Saker described the policies likely in a Clinton presidency and the risks of war. In this report, at my request, he will review his top 10 recommendations for a Trump presidency.

We also celebrate the extraordinary accomplishments of the 9/11 Truth movement, as described in Saker's [article published on the 9/11 anniversary](#).
