Solari Report Update

A New Teaching: Imagination with Jon Rappoport - July 30th

To

"Everything you can imagine is real."

~ Pablo Picasso

This week on the *Solari Report*, Jon Rappoport delves into the subject of imagination:

"Imagination is already there in every person, as a potential. To put it in a slightly different way, imagination comes into being the moment you want it. Even more accurately, perhaps, imagination is

imagining. It's an action. When you want to take that action, you can."

I'm one of those people who has an unquenchable thirst for Jon's encouragement to shift my imagination into high gear. *Mr Global* has literally gotten a vast majority of the human race to forget the power of our imagination. If enough of us wake up and tap back into this power – watch out!

It may be that what people experience in their lives is the reality they continuously *imagine*. As Jon puts it, life is about the process of *subconscious invention*:

"I once spoke with a woman who had, for many years, struggled to win a victory in a just environmental cause. She was a veteran activist leader; and she had never won what she was seeking. She was stymied. I told her she had to imagine a new kind of strategy, and I gave her a simple writing exercise that would enable her to get outside all the familiar campaigns of the past. Within two minutes, she found what she was looking for. Which is to say, she imagined it. I wasn't giving her knowledge or content or a system or an answer. I was showing her a way to invent something new, on her own."

Jon's teachings on imagination for the *Solari Report* now constitute a classic:

Trans-Pacific Partnership Part Two: Trade In Services Agreement Background, Composition of Support and Opposition, Potential Dangers and Links - Available for

Subscribers!

[Note from CAF: This piece is the second part of a series on the proposed trade agreements. Our first piece on the Trans-Pacific Partnership can be found [here](#). These agreements are expected to have a significant impact on the global economy. We hope these pieces help to educate you about what is underway.]

By Carolyn A. Betts, Esq. and Catherine Austin Fitts

In Part 1 of the *Solari Report's* series on international trade agreements and trade promotion authority, we provided a summary of some of the terms of the secret draft sections of the Trans Pacific Partnership Agreement (TPP), a proposed regional free trade agreement that would cover the trade in goods among twelve Pacific Rim countries, including the US. We provided links to sections of the TPP that have been leaked by Wikileaks and described some of the objections registered by various groups that oppose the TPP. We described some non-tariff trade barriers sought to be addressed in typical free trade agreements like the TPP and the international tribunals that have become the arbiters of disagreements among signatories (called "Parties") to various trade agreements in recent years.

Highlights from Our Last Report

Former Congresswoman [Cynthia McKinney](#) (D-Ga) served in the House of Representatives with distinction from 1997 to 2003 and 2005-6 and was nominated by the Green Party to serve as US President in 2008. It is largely due to her work in Congress that we know as much as we do about trillions missing from the US government, sex-slave trafficking by defense contractor officials and the failure to achieve transparency and accountability regarding the events of 9/11. The shenanigans that McKinney managed in her 2002 defeat and 2004 re-election to Congress were documented in the Guerrilla News Network production [American Blackout](#).

I have said many times that we have three pathways before us:

- War
- Depopulation
- Change

Our focus at Solari is *change*. I have asked Congresswoman McKinney to join us on the [Solari Report](#) this week to discuss the REAL issues we face in 2016.

We need to understand what a successful United States and a successful world really look like. McKinney is one of the seasoned leaders who has been in the fray, grappled with the issues and is helping people create a practical vision. She is brilliant and shoots straight – so be prepared for **a much more informative discussion** than you are used to hearing from “entertainment politics.”

Congresswoman McKinney is also the author of [Ain't Nothing Like Freedom](#) and editor of [The Illegal War on Libya](#).
