Solari Report Update

What You Need to Know Now - Sep 24

The more I speak with *Solari Report* subscribers, the more I feel the need to underscore the importance of certain aspects of the world in which we live:

Overview

- The global rebalancing of the economy is **intentional**. It is being led by an invisible governance structure which is reengineering us, our environment and the systems upon which we depend.
- Ultimately, governance of our political and financial systems are determined by force. The most powerful weapons today are invisible. These include invisible surveillance and mind control systems.
- Globalization and new technology have unleashed unprecedented change...and it has only just begun.
- In this environment, we are responsible to create our own **free and inspired life**. What we do and what we dream matters.

This week, I want to connect you with some of the best resources in the *Solari Report* libraries to help you 1) understand what is unfolding this fall and 2) navigate the road ahead. These include several of our recent Wrap Ups. Our quarterly and annual wrap ups are designed so that you can stay well-informed if they are the only news analysis you read all year!

If you have not accessed these *Solari Reports*, please use this next week to take advantage of some of our best resources. We will post the direct links in subscriber resources on Thursday. Of course, subscribers can access them anytime in our resource libraries.

Highlights from Our Last Report - The Offshore Financial System with Lucy Komisar

This week on the Solari Report I am joined by investigative journalist [Lucy Komisar](#), publisher of [The Komisar Scoop](#).

I asked Lucy the following question, which really gets to the heart of the matter:

“If you step back and look at both the offshore system and the dark pools – which would be ways of exchanging and settling securities which are now non-transparent – and then you look at derivatives, is it fair to say that we’re watching larger and larger percentages of the financial system go dark?”

Lucy Komisar responds:

“That’s right and when things are done secretly, you don’t know who the trader is. A lot of it is dirty money and supposedly one of the reasons why Robert Rubin didn’t want to go after the offshore system was that there was a feeling that drug money was fueling the American economy. One didn’t want to make it more difficult for drug traffickers to move their money into the American economy. Without having definitive proof, this is certainly something I have heard: that dirty money fuels the Western economies.”

The offshore system integrates many of the issues we discuss on the *Solari Report* – because breakaway civilizations and secret space programs, as well as all manner of covert operations, **depend on secret financial systems**. Whether you use offshore financial systems or not,

they are a key part of the centralization of governance. I want to make sure that you understand them.
