Solari Report Update

Changing Your Mind with Jon Rappoport - Sep 24

*“The dog trots freely in the street
and has his own dog’s life to live
and to think about
and to reflect upon
touching and tasting and testing everything”
~ Lawrence Ferlinghetti*

This week on the *Solari Report* I will be joined by long-time ally and collaborator, Jon Rappoport. We will discuss the radical reengineering under way this fall. We have a **great deal** to discuss:

- The Iran deal
- UN Development Agenda post 2015
- World leaders at the UN
- Trans-Pacific Partnership
- Immigration / refugee migration
- Double-down push on vaccines
- The US federal budget: why is it still open?

After spending two weeks in Italy and Switzerland, I now have a better sense of the European refugee situation. I am now in the Netherlands and will be speaking with Jon from Amsterdam.

What astonishes me as we roll through this intense schedule is the extent to which the populations in the G-7 countries continue to support institutions implementing the very policies which those populations oppose. The latest example is the favorable polls related to the Pope and the US presidential campaign.

Jon and I will literally be discussing “changing our mind” – what it means, how we can do it and what would happen if we did. It would be amazing!

Please join Jon Rappoport and me for a fascinating discussion this Thursday.

I will also be covering the latest events in financial markets in *Money & Markets*. Make sure to post or e-mail your questions for *Ask Catherine*.

The coin design features a solar armillary (the Solari logo) on one side and the horsemen of the Knights Templar on the other side. This coin is representative of Solari's purpose: to align interests, protect, guide, and lead through troubled times.

Highlights from Our Last Report - What You Need to Know

The more I speak with *Solari Report* subscribers, the more I feel the need to underscore the importance of certain aspects of the world in which we live:

- The global rebalancing of the economy is **intentional**. It is being led by an invisible governance structure which is reengineering us, our environment and the systems upon which we depend.
- Ultimately, governance of our political and financial systems are determined by force. The most powerful weapons today are invisible. These include invisible surveillance and mind control systems.
- Globalization and new technology have unleashed unprecedented change...and it has only just begun.

- In this environment, we are responsible to create our own **free and inspired life**. What we do and what we dream matters.

This week, I want to connect you with some of the best resources in the *Solari Report* libraries to help you 1) understand what is unfolding this fall and 2) navigate the road ahead. These include several of our recent Wrap Ups. Our quarterly and annual wrap ups are designed so that you can stay well-informed if they are the only news analysis you read all year!

If you have not accessed these *Solari Reports*, please use this next week to take advantage of some of our best resources. We will post the direct links in subscriber resources on Thursday. Of course, subscribers can access them anytime in our resource libraries.

And for those looking for a great video, I continue to recommend Sir James Goldsmith's 1994 warning about globalization – and I will continue to do so until every Solari Report subscriber is aware of it!
