Solari Report Update

The Devil's Chessboard with David Talbot, May 05th

To

"Mankind must put an end to war before war puts an end to mankind."

~ **John F. Kennedy**

Former CIA Director George H. W. Bush was quoted recently as saying "Americans can't handle the truth." We disagree. The Solari Report team knows **you can handle the truth**. In our next Solari Report, we offer you a powerful discussion with one of the most courageous truth-tellers in our midst as he explains one of the most important truths to help you understand how the world works today. David Talbot is the founder, former CEO, and editor-in-chief of *Salon* magazine. Since leaving *Salon*, he has continued writing and publishing, most notably on the Kennedy administration and assassination. His latest book, *The Devil's Chessboard*, a biography of CIA Director Allen Dulles, was published in 2015, seven years after Talbot published *Brothers: The Hidden History of the Kennedy Years*.

Who arranged the assassination of John F. Kennedy in Dallas in 1963? Was it a lone gunman? Was it the Russians? Was it Fidel Castro? How about the Mob? Every lame explanation of that day has ultimately failed.

It was the Establishment that killed Kennedy — with Allen Dulles and the CIA at the very heart of organizing, executing, and covering up the assassination. The conspiracy involved the full breadth of the "deep state" — segments of the military,

the FBI, the Secret Service (and its boss, the Secretary of the Treasury), and the banking and investment centers in New York and Boston.

Once you digest the facts that Talbot lays out, you will never look at the American Establishment in quite the same way. Indeed, I asked one of my most astute allies to read the book. Weeks after finishing it, he remarked, "You know, I look at the world differently now." To which, I responded, "Why, you already knew that the Establishment killed Kennedy." He replied, "It is one thing to believe it. It is quite another to finally learn the facts."

In *Let's Go to the Movies*, I will review *The Good Shepherd*, a fictional account of the birth and growth of CIA counterintelligence. It tells the story of the culture and mentality that fostered the covert side of our world.

Highlights from Last Week - Jay Dyer - Unpacking What Movies Tell Us About Mind Control

The divine intelligence is a great power, as is the human spirit and all of life. To unleash this power in our lives requires overcoming the man-made obstacles placed in our paths by mind control — in all its various forms.

How do we free ourselves from mind control manipulation and programming? The first step is knowing that these techniques and technologies exist. Next, we learn what we can about how mind control works. In the process, our understanding of the impact that mind control has on our lives and on society around us grows. Finally, we can choose to take steps to free ourselves while living in a society where many choose not to do the same.

One way of learning about mind control in all its aspects is to unpack what Hollywood tells us. This week on the Solari Report, [Jay Dyer](#) of [Jay's Analysis](#) joins me to review twelve movies that teach us a great deal about mind control and related technologies. I met Jay at [Secret Space Program 2015](#) where he wowed us with his [presentation on what Hollywood says about secret space programs](#). Jay's mastery of cinema and the “deep state” is unique. You can view links to his reviews of the movies we'll discuss this week below.
