## Blockbuster Chartology with Rambus/3rd Quarter Equity Overview with Catherine - October 20<sup>th</sup>

To

*"Nearly all men can stand adversity, but if you want to test a man's character, give him power." ~Abraham Lincoln*

This coming week we will publish the quarterly written *Blockbuster Chartology* text from [Rambus](#), with an in-depth review across currency, commodity, equity and precious metals markets.

For our audio interview, I will solo to review insights from Rambus as well as our *3rd Quarter Wrap Up Financial Roundup*. You can link to the *Financial Roundup* now in the web presentation for the *3rd Quarter Wrap Up*, which is linked to your Subscriber Resource Page. I will post a link to the *Blockbuster Chartology* on Thursday in your subscriber links.

Across all markets – whether with technical analysis or fundamental analysis – everywhere you turn, we are reaching an inflection point. We are engaged in “battles royal” to define that model that organizes our society, governance, and economy. Will we be a humane society or an inhumane society? Do we maintain the rule of law or reign through politics and force? Are we free and sovereign individuals or “deplorables” to be microchipped, vaccinated and sprayed without our consent? Serious struggles about our most basic values lead to major market shifts,

institutional overhauls and war. Uncertainty is the context, so investors are concerned.

Posting from home base in Tennessee, I will address current events in *Money & Markets* and report on our great launch party this evening in Tulsa for the Joseph P. Farrell Pipe Organ crowdfund. Please make sure to e-mail or post your questions for *Ask Catherine*.

In *Let's Go to the Movies*, I will review another inspiring documentary, *Dark Horse*. This is the story of a barmaid and 30 customers in a Welsh coal-mining village who pool their skills and resources to make their dreams of breeding a thoroughbred race horse come true. The *Dark Horse* story is a delightful reminder of what ordinary people can do when they set their minds on accomplishing extraordinary things.

Talk to you Thursday!

The Joseph P. Farrell Pipe Organ Crowdfund

**Stay Tuned Launching Soon!**

By Catherine Austin Fitts

Are you ready for the Joseph P. Farrell Pipe Organ Crowdfund? Our team is working with some of our favorite FOJ – Friends of Joseph – to launch a crowdfunding for a virtual pipe organ (that is a very real organ with digital pipes) for our dear friend and ally Dr. Joseph Farrell. Stay tuned for the “high octane” composition that flows from Joseph and his new organ.

The Joseph P. Farrell Pipe Organ Crowdfund...it's coming!

Here is a picture from our organ builder Chris Martin of a similar organ to the one that will be built for Joseph:

### Highlights from Last Week - 3rd Quarter Wrap Up - News Trends & Stories, Part II

This week brings **Part II** of the **News Trends & Stories** of our **3<sup>rd</sup> Quarter Wrap Up** which is presented throughout October in four parts:

- **News Trends & Stories, Parts I & II:** During the first two weeks of October, we highlight the top news trends and stories with Dr. Joseph Farrell. [Last week in Part I](#), we looked at *Economy and Financial Markets* and *Geopolitics*. This coming week in **Part II**, Dr. Farrell and I will cover *Science and Technology* and *The Big Questions*. Make sure to check our web presentation for the complete listing with links of *News Trends & Stories* for the 3<sup>rd</sup> Quarter.
- **Financial Market Roundup:** In the third week of October, we will combine a written Blockbuster Chartology from master technician Rambus with Catherine's Equity Overview. Make sure to check our web presentation for the complete roundup of financial market charts on September 30.
- **Theme – Investment Screening: Can We Filter for Productive Companies?-** Finally, we look at our big theme. We look at the investment screening industry to ask whether we can filter the markets to find fundamentally productive companies. In August, investors in private prison companies found their stock price down by almost 50% because of changing government policies. And Wells Fargo stock is down by 18% this year, in part because of a scandal related to falsification of accounts. As the debt-financed growth model comes to an end, investors in companies that are not fundamentally productive face a new set of risks.
