International Director of the Organic Consumers Association (OCA) and its Mexican affiliate Via Organica.

The OCA is a non-profit, U.S.-based network of 2 million consumers, dedicated to safeguarding organic standards and promoting a healthy, just, and sustainable system of agriculture and commerce.

As Ronnie points out, there are 50 to 100 million organic farmers and ranchers worldwide. Indeed, the full food and farming industry worldwide is bigger than the military industrial complex. If you look at all the problems that plague us, from immigration to inequality, solving all the problems will involve a return to regenerative soil and agriculture with the vitality of life that results.

As he connects the dots, Ronnie provides essential tips for navigating the food system and helps you understand the power of your personal food choices.

In *Let's Go to the Movies*, I will review *Haute Cuisine*, a charming French film that celebrates how food nurtures and connects our hearts on planet Earth.

## **"Scientists for Peace, Planetary Consciousness and Ethics"**

**October 19-21, 2018**

**International Conference – The venue will be the Hall of Culture in Città della Pieve, a little middle age town between Florence and Rome in the heart of Italy.**

Today people need a new science that spreads ethics and involves all aspects of life – from biology to cosmology, from physics to consciousness – so that applied sciences like engineering and medicine will be expressions of harmonious relationships.

This change of the paradigm in science is vital to our future. Humanity needs to develop a new understanding of life in the universe.

Now the joint technological capabilities have reached a point that threatens the end of human history: ethics in science has never been so important.

**Three days of full immersion in debates and exchanges, hosted in one of the most beautiful regions of Italy, its “green heart”, Umbria.**

**Scientists, engineers, medical doctors, economists and educators of international renown, recognized for their commitment for common good, have been invited to give the possible answers to the following questions.**

## **Highlights from Last Week - The Cosmic Implications of Mind Control with Dr. Joseph Farrell**

This week on The Solari Report, Dr. Joseph Farrell joins me to discuss his new book *Microcosm and Medium: The Cosmological Implications and Agenda of Mind Control*.

It's time for America to break free from its mind control trance. Step one is to understand that mind control technologies are real — and they are deeply dangerous. Step two is to see the opportunity — the creative potential that is possible when we break free.

With *Microcosm and Medium*. Dr. Farrell has written the best book I have read yet on the mind control being used to manipulate you and me. More than once, I had to put the book down to digest an entirely new insight. I was amazed to realize how much there was about this subject that I had not yet understood. Looking back over the descent of American politics and communities into madness, I gained new perspectives on how it happened.

This book is invaluable to understand the world we live in and why we can, as Joseph so often says, “own the culture.” Indeed, I now understand what he means and what to do. Joseph provides the kind of intelligence that infuses personal power that no one can take away from you.
